MEMORANDUM FOR: Director, East Asia Analysis
Director, Office of Global Issues
Director, Near East/South Asia Analysis
Director, Science and Weapons Research
Director, Soviet Analysis

FROM : Associate Deputy Director for Intelligence

SUBJECT : FY 1985 Position Reallocations

1. Instructions received from the Comptroller based on FY 1985 Congressionally Directed Actions and prior agreements between the Deputy Directors on the Career Trainee Program will require an additional reduction in strength of one position from each of your offices.

2. In essence, the DI is required to provide two positions to accelerate the review of FOIA requests and to furnish an additional three positions to OT and E in support of CT training. There being no way to distribute this burden equally among all DI Offices, I have selected yours chiefly because of the differential between your authorized position ceiling for FY 1985 and your present on-board strength. My supposition is that you will have substantial difficulty reaching ceiling over the next ten months and therefore are better prepared to tolerate this marginal loss than other offices.

3. Accordingly, I have directed the Office of Management, Planning and Services to reduce the FY 1985 ceiling for each of your offices by one position.
